# WHAT I WANT MY STUDENTS TO KNOW ABOUT ME:

I am always available if you need help. I want to help math make sense for you. I believe we are **all math people**. Some of you just may not realize it yet!

One of my top priorities is ensuring you have fun everyday in math!

I have really high expectations for each of you. Our class may sometimes be hard, but you will learn and feel successful.

I believe mistakes make you smarter and I am not afraid of making them myself. Don't be afraid to challenge me or ask for clarity. That is how we learn!
