

Algebra 1 Summer Assignment

For the Algebra 1 summer assignment, you will be required to create a **google slides presentation or a poster** about yourself. You will upload that presentation to the google classroom the first week of school. **Please title it Your name_All About Me. You will turn this in the first week of school.**

We are attaching example slides that your 8th grade teachers created, so that you can learn about them too! You are welcome to make a copy of any of their samples to use as a template for when you make your own.

Side 1: Your name, preferred pronoun, email address, phone number & a picture of yourself.

Slide 2: An adorable baby picture of yourself and one fact about you that no one could guess.

Slide 3: What would a perfect math classroom look like for you (remote and/or in person)? What should the teacher's be doing? What should the students be doing?

Slide 4: Describe yourself as a math student. What should your teachers know about you?

Slide 5: All about my guardians: your guardians' names, your guardians' email addresses, your guardians' phone numbers, and home address; please also let us know who you live with or any other notes we should know about your home life.

Slide 6-9+: Topic Choices- choose **a minimum of 4** topics from the list on the next page and create a slide for each topic.

Be creative and have fun with it! We encourage you to use sounds, pictures, videos, etc. We are so excited to meet all of you! Email us with questions!
