Kingsborough Continuing Education CFK Course Offerings

For Ages 7-14 only.

3D Design
Learn how to create computerized 3D designs.

Acting & Screenwriting
Create your own TV shows and TV commercials! Practice your acting skills while learning how to write scripts. You will sharpen your artistic skills by crafting, drawing and more.

Arts & Crafts
You will sharpen your artistic skills by crafting a scene out of foil, weaving a bracelet and more.

Basketball
Learn the basic skills, rules and tactics of basketball. You must wear sneakers.

Business Junior
This unique class will teach business elements in a fun approach. Young entrepreneurs will develop a variety of skills including creative thinking, marketing, money management and more.

Comic Book Writer
You will broaden your imagination while enhancing your writing skills. Exercising creativity, you will write short stories and draw accompanying pictures.

Dance Fitness
Learn fun dance moves while getting some cardio exercise.

Drawing
Learn how to create artistic pieces through drawing images and bringing illustrations to life.

Environmental Science
Explore some of the fascinating wonders within our environment. Learn where wind comes from, what a greenhouse effect is and more!

Forensic Detective
An introduction to the intricate work of a detective and how they solve crimes through forensic science.

Fun Science Projects
From thinking of a unique science fair experiment to putting fabulous finishing touches on the display, you will learn to put together a winner, and have fun doing it too.

Gardening for Fun
From flowers to food, basic skills are needed to grow plants. This fun class will have everyone participating.

Graphic Design For Kids
Learn the basic principles of design and construction to create greeting cards, flyers, logo designs and report covers.

International Explorer
Learn fun facts including phrases, food, locations and practices of various cultures across the countries of the world.

Judge & Jury
A fun way to learn about law and our justice system. Students will learn about interesting cases and then discuss and examine their outcomes while practicing mock trial skills.

Kid Reporter
Explore journalism as you learn how to research information, prepare for and conduct interviews and write reports.

Math Games
Learn math concepts, use logic, and solve problems while playing math games.

Math Mysteries
Defeat vampires using algebraic equations and escape an enemy spy using ratios! Crack open your logic and deductive reasoning skills when solving real-world examples in this fun and unique class.

Microsoft™ for Kids
Learn the essentials of Microsoft™ applications in this fun and informative course. Learn how to prepare book reports, presentations, graphs and more.

Painting
Learn how to paint your own paintings using acrylic and watercolor paints.

Presentation Tech
Practice research and writing skills while learning how to create unique presentations with technology. Practice public speaking skills to deliver your presentation like a pro.

Photography
In this course, you will explore different photography techniques in both indoor and outdoor settings using composition and basic camera settings. Using any camera (digital, cell phone, instant film, ext) you will explore weekly projects using natural light, artificial light and camera flash to upload your images weekly for a friendly critique and create a slide show for you own personal portfolio to share.

Sculpture
This course will explore a variety of 3 dimensional sculptures using clay, wire, material/objects found at home and more. Sculpting also includes collages and mosaics with mixed media such as markers, paint, etc. Projects will be photographed and uploaded weekly for a friendly critique and a virtual slide show exhibition to share.

Soccer
Learn the basic skills, rules and tactics of soccer. Practice kicking, trapping and passing the ball. You must wear sneakers.

Spanish
Learn and practice Spanish while exploring its culture.

Television Broadcasting
Learn the fundamentals of television broadcasting while improving writing skills and creating original talk shows for television broadcast,

Write A Play
Learn the step-by-step basics: character, conflict and structure, setting, dialogue and formatting. You will be guided through the process of writing a play from start to finish. This class will give you the tools to go forward on your writing journey.

Yoga
Learn yoga postures in a fun, safe way that encourages you to play and try something new.
