Job Posting 2021-2022 School Year

Position(s):

- Teacher of Students with Disabilities, grades 6-8
- Science Teacher, grade 7

The Math and Science Exploratory School (MS 447) is an intentionally diverse middle school in Boerum Hill, Brooklyn, serving students from across District 15. We are an inclusive and progressive learning community, with strong ICT programs on each grade. We are also a Nest school, serving students with Autism Spectrum Disorder in an inclusive environment. Our staff, students, and families are reflective and supportive, nurturing our students in their academic and emotional lives through strong teaching teams, hands-on, inquiry learning, small-group advisory, peer mediation, restorative practices, and more.

We seek collegial, passionate teachers to learn, grow, collaborate, contribute, and create within our community. Candidates must:

- Demonstrate a commitment to educational and problem-solving approaches that holistically and empathetically center early adolescents and their needs and behaviors.
- Be willing to engage in ongoing anti-bias and anti-racist training, and work towards the incorporation of that learning into instructional and curricular choices.
- Set and maintain high academic expectations for all students, and work systematically and collaboratively to ensure that all students are successful in meeting them.

For fall 2021, we have openings for certified teachers of Students with Disabilities and Science. We are also happy to review resumes in English Language Arts, Math, and Social Studies. MS 447 is committed to building a racially, economically, and culturally diverse faculty and staff that reflects our student population. Qualified candidates should send resume and cover letter to the hiring committee at hiring@ms447.org.
